

## The Smarter Cash Management System

**Connect smart safes, logistics, maintenance, and software in one platform.** Get real-time visibility, automate workflows, reduce risk, cut costs, and simplify operations everywhere.

### Smart Safe Technology

Automate cash handling, reduce errors, and get instant deposit visibility with next-day credit.

### Cash-in-Transit (CIT)

Dynamic pickup scheduling, lower transportation costs, and maintain a secure chain of custody

### Maintenance & Support

Monitor remotely, minimize downtime, and access next-day field support.

### Centralized Dashboard

Manage all locations from one dashboard with real-time alerts and actionable reporting.

**Unlock real-time visibility, automation, and control.**

Scan to learn more.

Unlike fragmented solutions from other CIT providers, **VaultOS is built as one unified platform.**

## Designed for Multi-Location Retail

### See and Control Everything

Automate cash handling, reduce labor, and minimize unnecessary pickups so your team can focus on what really matters.

### Protect Your Money

Reduce shrink, secure deposits, and maintain a full chain-of-custody for complete peace of mind.

### Save Time & Cut Costs

Eliminate manual counting and end-of-day reconciliation with consistent processes across every location

**Take control of your cash ecosystem with FTSI VaultOS.**
